

Job Title: Pipe Welder (Stainless and Carbon Steel)

Company: Arc Mechanical Services

Location: Etobicoke, Ontario

Type: Full-time

About Us: We are a company specializing in essential piping systems, and we're seeking an experienced Pipe Welder to join our team. If you have a strong background in welding stainless steel and carbon steel pipe, along with proficiency in stick welding, we want to hear from you!

Responsibilities:

- Perform high-quality TIG and stick welding on stainless steel and carbon steel pipes.
- Read and interpret blueprints, schematics, and welding specifications.
- Ensure welds meet industry standards for strength, quality, and safety.
- Collaborate with other team members to complete projects efficiently.
- Conduct inspections to identify and address any defects or issues.
- Work in both a shop setting and on-site at various locations in and around the GTA.

Qualifications:

- Experience: Capable of welding to ASME B31.1, ASME B31.3, and CSA Z662 standards with X-ray quality.
- Certifications: Ability to pass welding certifications test (TIG, and stick).
- Skills: Proficient in pipe layout, fit-up, and welding techniques.
- Attention to Detail: Ability to produce precise and clean welds.
- Safety: Committed to following safety protocols and guidelines.
- Team Player: Works well in a collaborative environment.

Compensation: We are open to both contractors and those interested in a competitive hourly wage.

How to Apply: Interested candidates should submit their resume and a cover letter highlighting their relevant experience to [careers@arcmechanical.ca](mailto:careers@arcmechanical.ca)
